Fast Website Design for Small Businesses | Straffe Sites

Senior Belgian web team building fast sites and online stores for small businesses. Median 98/100 mobile PageSpeed, one contact. Get a clear quote.

2 · YOUR PAGE UNDER THE MICROSCOPE

Where it goes wrong

We looked at your page on six points Google cares about. The longer the bar, the better.

The three most important improvements

1

Put 'small business' and 'web design' in the page title and main heading

Now: Title: 'Straffe Sites — rock-solid websites that load fast' (50 characters, brand first).

Better: New title (56 characters): Fast Website Design for Small Businesses | Straffe Sites.

2

Show a price range and a typical timeline

Now: FAQ answer on cost: 'That depends on your goals and the size of your project.' FAQ answer on timing: 'It varies by project.' Competing pages in the US results…

Better: Replace both answers with real numbers from your own work.

3

Tell US visitors that you work with them

Now: The page mentions 'Worldwide remote delivery from Belgium' as one bullet.

Better: Add a short block under the 'No agency.

3 · SEARCHING WITH AI

ChatGPT and Google AI don’t recommend you yet

We asked ChatGPT and Google AI Mode about “small business web design”, just like a customer would, and checked whether your business is in the answer.

What your AI agent does in the first month

Your AI agent starts with the improvements from this report. You do not have to do anything.

1. Put 'small business' and 'web design' in the page title and main heading
2. Show a price range and a typical timeline
3. Tell US visitors that you work with them
4. Make the person and company behind the site visible

AND AFTER THAT?

Your AI agent can do much more than make your website easier to find. The next page explains what.

4 · YOUR OWN AI AGENT

Your AI agent does much more

A chatbot gives you an answer. An AI agent does the work. It starts with your website, but you can also give it other work, just like a colleague. That way you take your first step with AI without risk.

STEP 1 · INCLUDED

Your website

Found better in Google and AI, new copy and pages.

STEP 2 · WHENEVER YOU WANT

Other work for your business

Prepare quotes and emails, answer customer questions, keep your numbers in order.

STEP 3 · TOGETHER WITH VOLTTI

A custom AI agent

Connected to your mailbox, customers and planning, through Voltti (**voltti.ai**), also by Seppe.

Example: a conversation in Telegram

Prepare a quote for this morning's request.

It is ready for you to check. Do you want me to answer the other customer's question too?

Yes, write a friendly reply.

Will do, I will put it ready for you to read.
